What We Teach

Eli Wilson Goaltending teaches a cutting edge style that focuses on making goaltenders more efficient. Through game situation movements in high repetition, goaltenders learn to move correctly, in control of their movements, and with balance. We believe that a compact butterfly style combined with read and react skills creates the ultimate hybrid goaltender. We teach our goaltenders a system that is a foundation to build upon and develop. They learn where to be, how to get there quickly, how to make consistent saves and how to control their rebounds. We recognize that the key to effective goaltending is simplicity, the simpler the game you play, the more often you will be in a position to make saves and the better your save percentage and goals against average will be. Goaltenders that learn our system for the first time make quantum leaps in their performance and levels of play. If the goaltender has a good work ethic and wants to learn and improve, by attending one of our summer camps they will surpass goalies that had previously been better.

Eli Wilson is one of the best Goalie Coaches in the world, 24 of his students have played professionally. Eli teaches elite goalies in the NHL, KHL, AHL, WHL, OHL, NCAA.
